EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning Technocrats Institute of Technology, Bhopal	2021 – present CGPA - 7.3
Higher Secondary Examination Gyan Sagar Public School, Indore	2020 – 2021 Percentage - 87.6%
Secondary School Examination V.S. Public School, Bhopal	2018 – 2019 Percentage - 88.2%

WORK EXPERIENCE

Prompt Designing Intern Sugarcane AI	12/2023 – 03/2024 Remote
<ul style="list-style-type: none">Trained AI models through data preprocessing, experimentation, and parameter fine-tuning for performance optimization.Assisted in troubleshooting technical issues and documented processes to facilitate knowledge sharing within the team.	

SKILLS

Languages — Python | JavaScript | TypeScript | C++ | SQL
Development — React | Next.js | Redux Tool Kit | Tailwind CSS | HTML | CSS | Numpy | Pandas | Matplotlib
Tools & Software — VS Code | Github | MongoDB | MySQL | Vercel | Firebase
Core Subjects — Data Structure and Algorithms | Object Oriented Programming Principles | Machine Learning

PROJECTS

- Phishing Detection System** 
- Built and evaluated an Artificial Neural Network (ANN) model for phishing email classification using Python libraries like pandas, scikit-learn, and Keras.
 - Achieved 94% performance in identifying phishing data, demonstrating the model's effectiveness in real-world applications.
 - Technology Used : Python, Tensorflow, Numpy, Pandas, Matplotlib etc
- Devnode - A Blogging Platform** 
- Implemented functionalities like user authentication and real-time data management with Firebase authentication and Firestore Database.
 - It is featured with rich text editing for user-friendly content creation, image uploads for visual engagement, and a commenting system to foster community interaction.
 - Technology Used : HTML5, Tailwind CS, JavaScript, React JS, Next JS, Firebase etc.

ACHIEVEMENTS

- Participated in 5+ Hackathons and finalist in 1 Hackathon worked on Real-world projects with the team.
- Around 90+ Questions solved on Codechef platform.
- Volunteered & Coordinated in 4+ Local and International Events like India Blockchain Week , Web3 Carnival etc.

POSITION OF RESPONSIBILITY

- Developer Advocate - Oraichain** : As a Developer Advocate I am responsible for progress to building projects, onboarding evangelists, and representing the community in events and workshops.
- Organiser - Buidl-a-thon** : Core team member of an online hackathon Buidl-a-thon organized by Central DAO.
- Regional Lead - Outdefine** : Outdefine's regional lead, connecting tech talent and students. and expanding our reach.

CERTIFICATES

- IBM** Introduction to Data Science | Cloud Computing Fundamentals
- Google** Introduction to Generative AI | Introduction to Large Language Models | Google Cloud Computing Fundamentals
