Education

Bachelor of Technology in Artificial Intelligence and Machine Learning Technocrats Institute of Technology	2021 – present CGPA - 7.3
Higher Secondary Examination Gyan Sagar Public School	2020 – 2021 Percentage - 87.6%

Work Experience

Prompt Designing Intern Sugarcane AI	Dec 2023 – Mar 2024 Remote
--	-------------------------------

As a Prompt Designing Intern at SugarCane AI, I focused on training their AI model. Responsibilities included data preprocessing, experimentation, and fine-tuning parameters for improved performance. Assisted in troubleshooting technical issues and documented processes for knowledge sharing.

Projects

- Phishing Detection System** 
- Built and evaluated an **Artificial Neural Network (ANN) model** for **phishing email classification** using Python libraries like **pandas**, **scikit-learn**, and **Keras**.
 - Achieved **94% performance** in identifying **phishing data**, demonstrating the model's effectiveness in real-world applications.
 - Technology Used** : Python, Tensorflow, Numpy, Pandas, Matplotlib etc
- Devnode - A Blogging Platform** 
- Implemented functionalities like **user authentication** and **real-time data management** with **Firebase authentication** and **Firestore Database**.
 - It is featured with **rich text editing** for user-friendly content creation, **image uploads** for visual engagement, and a **commenting system** to foster community interaction.
 - Technology Used** : HTML5, Tailwind CS, JavaScript, React JS, Next JS, Firebase etc.

Skills

Languages: Python | JavaScript | C++ | SQL

Development: React | Next JS | Redux Tool Kit | Tailwind CSS | HTML | CSS | Numpy | Pandas | Matplotlib

Tools & Software: VS Code | Github | MongoDB | MySQL | Vercel | Firebase

Core Subjects: Data Structure and Algorithms | Object Oriented Programming Principles | Machine Learning

Achievements

- Participated in 5+ Hackathons worked on Real-world projects with the team.
- Around 90+ Questions solved on Codechef platform.
- Coordinated in 3+ National and International Events like India Blockchain Week , Web3 Carnival etc

Position of Responsibility

- Developer Advocate - Oraichain** : As a Developer Advocate I am responsible for progress to building projects, onboarding evangelists, and representing the community in events and workshops.
- Organiser - Buidl-a-thon** : Core team member of an online hackathon Buidl-a-thon organized by Central DAO.
- Regional Lead - Outdefine** : Outdefine's regional lead, connecting tech talent and students. and expanding our reach.

Certificates

- IBM** Introduction to Data Science | Cloud Computing Fundamentals
- Google** Introduction to Generative AI | Introduction to Large Language Models | Google Cloud Computing Fundamentals
